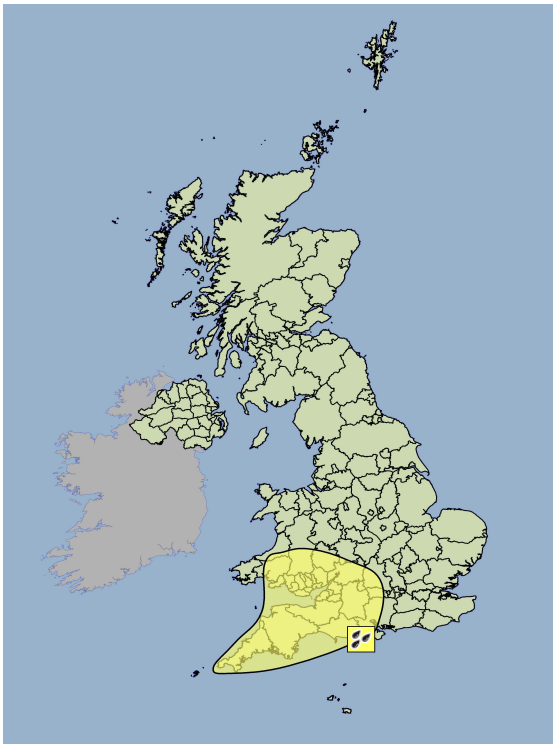
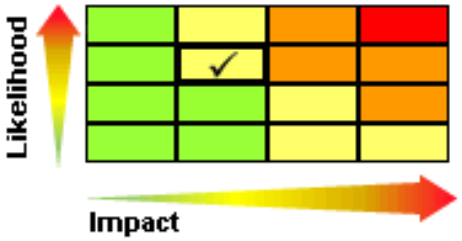
National Severe Weather Warning Service





CANCELLED

Chief Forecasters Assessment
A frontal system containing warm, humid air is expected to bring heavy rain to Cornwall and Devon later on Tuesday evening, before spreading to parts of South Wales, the West Country and central southern England overnight. 20-40 mm could fall in some areas within about 6 hours, leading to some surface water flooding.

Computer models are still presenting us with varying outcomes, a few of the latest having lesser amounts in general - hence this warning may be updated later today.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **22:00 on Tue, 05th Aug 2014** until **08:00 on Wed, 06th Aug 2014**

Heavy rain is expected to spread from the southwest on Tuesday evening, affecting many areas overnight before clearing early on Wednesday morning.

The public should be aware of the potential for localised surface water flooding.
